BioSpan

From preparation to preservation, BioSpan's concrete solutions are engineered for optimal performance and sustainability.

Our full suite of concrete solutions deliver superior results for every need, ensuring reliable performance from start to finish.

Tailored Solutions for Every Stage of Concrete Maintenance

INNOVATIVE CONCRETE PRODUCTS FOR SUPERIOR PERFORMANCE

With over 30 years of expertise, BioSpan Technologies has led the way in sustainable infrastructure solutions.

Our bio-based, environmentally friendly products are specifically formulated to protect, preserve and repair concrete surfaces while reducing maintenance costs and environmental footprints.

OUR FULL LINE OF CONCRETE PRODUCTS

OptiSeal

Penetrating protection and preservation

cCure

Improves curing and strengthens concrete

cPatch

Crack and hole repair

cNew

Routine and heavy-duty concrete cleaning

FR4400

Aids in removing concrete forms

FSR4450

Aids in removing concrete form spacers

CapTec5500

Long-term concrete tile sealing

bNew

Routine and heavy-duty brick cleaning

BR3600

Pre-treating concrete equipment

CR3600

Cleaning concrete tools and machinery

**All BioSpan concrete products work
on both horizontal + vertical surfaces**

OptiSeal™

BIO-BASED PENETRATING CONCRETE SEALER

Application Stage

Post-construction preservation

Purpose

Protects and enhances concrete surfaces

Key Benefits

94% bio-based, VOC-free

Prevents wear, staining, and cracking

Extends surface life by 3–5 years

cCure™

CONCRETE CURING AGENT

Application Stage

Cure and reinforcement

Purpose

Slows evaporation of water to strengthen the cure

Key Benefits

Strengthens concrete

Durable, long-lasting curing agent

cPatch™

CONCRETE REPAIR AGENT

Application Stage

Crack and hole repair

Purpose

Fast and reliable patching
for structural integrity

Key Benefits

Ready-to-use
formulation

Efficient, long-lasting
repair

cNew™

CONCRETE CLEANER

Application Stage

Routine cleaning

Purpose

Removes dirt, stains,
and tough residues

Key Benefits

Safe for indoor
and outdoor use

Eco-friendly, effective
on oil and grease

FR4400™

FORMS RELEASE AGENT

Application Stage

Construction

Purpose

Easy release between concrete and forms

Key Benefits

Protects forms and concrete from damage during cure

Easier removal of forms from cured concrete

FSR4450™

FORMS SPACER REMOVER

Application Stage

Post construction

Purpose

Dissolve and remove foam spacers

Key Benefits

Quick removal of foam spacers

Efficient cleanup

CapTec5500™

CONCRETE TILE SEALER

Application Stage

Post-construction

Purpose

Seals and Protects
Concrete Surfaces

Key Benefits

Prevents wear,
staining, and
cracking

Long-term
surface sealing
