SECTION 179 DEDUCTION

Benefits of Section 179 Deduction

- The Section 179 Deduction can provide your business with a host of advantages. The key benefits include:
- Immediate expense deduction, providing significant tax savings for your business.
- Encouragement of growth and scalability through the acquisition of new equipment.
- Increased financial flexibility by improving your business' bottom line.

Qualifying Equipment

Many types of equipment are eligible for the Section 179 deduction. This includes both new and used business equipment, software, business-use vehicles, and more.

Frequently Asked Questions (FAQs)

What is the Section 179 Deduction? The Section 179 Deduction is a U.S. tax law designed to encourage businesses to buy equipment and invest in themselves.

Can I claim the Section 179 deduction for used equipment? Absolutely.

What types of businesses can use the Section 179 Deduction? Any business

Can I lease or finance equipment and still take a Section 179 Deduction? Yes

Is there a deadline for the Section 179 Deduction? Yes December 31, 2024

How does the Section 179 deduction affect my taxes? The Section 179 deduction allows you to deduct the full purchase price of qualifying equipment from your gross income. This reduces your taxable income and thus, your tax liability for the year.

Are there any limits to the Section 179 Deduction? Indeed, there are caps to the Section 179 Deduction. For the tax year 2024, the total write-off limit stands at \$1,220,000, and the cap on the total equipment purchased is \$3,050,000.

For more information visit section179.org and consult with your tax preparer or accountant.
