INVEST IN YOUR BUSINESS & SAVE ON TAXES

Put Section 179 to Work Before December 31st

What is Section 179?

Under IRS Section 179, eligible businesses can deduct up to 100% of the purchase price of qualifying new or pre-owned equipment, vehicles, and software purchased or financed during the tax year. Instead of depreciating your equipment over several years, write it off immediately to maximize cash flow.

See How the Numbers Work

Here is an example of how Section 179 can substantially reduce your effective purchase cost:

Cost Breakdown	Estimated Amount
Equipment Purchase Price	**$75,000**
Section 179 First-Year Deduction	**$75,000**
Estimated Tax Savings (assuming a 35% tax bracket)	**$26,250**
Effective Net Equipment Cost	**$48,750**

> **Key Cash Flow Advantage:** *If you finance your purchase, your first-year tax savings can exceed your total* **first-year payments***, putting cash back into your business right away.*

3 Rules to Qualify

1. **Eligible Equipment:** New and pre-owned tangible machinery, work vehicles, heavy equipment, and qualified commercial assets.
2. **Business Use:** The property must be used for business purposes more than 50% of the time.
3. **Placed in Service Deadline:** Equipment must be purchased (or financed), delivered, installed, and ready for use by December 31, 11:59 PM.

Don't Wait Until the Year-End Rush

Equipment delivery, freight schedules, and installation can take time. Secure your equipment early to ensure it is on-site and fully placed in service before the deadline.

Ready to Upgrade? Contact Us Today:

- **Phone: (800) 542-1214**
- **Email: [sales@yourcompany.com]**
